

# HOOK & LOOP DISCS

## SUPERGRIT® HOOK & LOOP DISCS FOR RANDOM ORBIT SANDERS

We now carry solid and vacuum discs to fit the hole configurations of most sanders on the market. Hook & Loop discs are easy to apply and allow changing back and forth between grits unlike PSA discs which may lose tack from dust. They have become the most popular products we sell. If you have a PSA pad and wish to convert to Hook & Loop we sell a conversion disc on page 39. If your back-up pad's hook surface starts to wear out and your discs don't attach, you can buy an inexpensive new hook surface without buying a new pad. **To save about 1/2 on discs, you can convert your H&L sander to PSA (see page 39).**

We stock five grades of Hook & Loop discs as follows:

**ULTIMATE BLUE ALUMINA ZIRCONIA** – These discs will outlast all others types especially on hard materials such as hard wood, metal, fiberglass, gel coats, etc.

**PREMIUM RED A.O. RESIN** on heavy weight paper backing are great for hard materials which normally tear or wear out other discs.

**MIRKA® GOLD A.O. RESIN** on "C" or "D" weight paper backing offer the best performance/value on the market. Auto body and wood working customers have made these Gold discs our biggest selling products.

**INDASA RHYNO WHITE A.O. RESIN**, on "C" and "D" weight paper backing. Premium grain, non loading, suitable for today's new water-based finishes. Best performance/value for auto body and wood working.

**SUPERGRIT® SALE PRODUCTS** — premium discs such as White Resin Smirdex from Greece, Norton Gold or "Champagne," White A.O. Resin Kovax from Japan, SIA from Switzerland, Klingspor from Germany, Carbo "Premier" from Canada, Sungold from USA all sold at close-out prices.

**Prices are listed in packs of 50.** Assorted packs are available. **Please specify type of disc, size, hole configuration, and grit.**
