

MICRON DISCS & AUTOBODY FILE SHEETS

MICRON DISCS

These Micron graded discs with polyester film backing are made to the highest tolerances for applications where uniformity of grit size is all important. Use them for wet or dry sanding. **The following are approximate grit comparisons between Micron and European "P" grading: 9 Micron = 2000 grit / 15 Micron = 1200 grit / 30 Micron = 500 grit / 40 Micron = 360 grit / 60 Micron = 240 grit / 80 Micron = 180 grit / 100 Micron = 150 grit.**
